seat height: 330

Architects Olaf Kneer and Marianne Mueller's iconic seating design develops a simple, playful profile into a comfortable and versatile range of products. Comprising seat unit with or without arms, a pouffe and a mini side-table, the elements can be combined in many ways and covered in a wide choice of fabrics. Frame construction is of FSC-accredited hardwood and plywood, with elastic seat suspension. Upholstery of graded cmhr foams with polyester fleece. The table top is finished in a white lacquer.

Mueller Kneer is an award-winning architectural practice. Established in 1997, they have worked on a variety of projects from residential and commercial interiors to buildings for the arts and communities. Their work has been widely published and they have been recognised as one of the most promising young practices in the UK. The hm55 range is their first venture into furniture design for commercial production.
