**Charles & Ray Eames** feature among the most important figures of twentieth century design. Their work is multi-faceted: they developed furniture, produced films and photographs, organised exhibitions and designed and built their own house as a pioneering endeavour.

**Vitra** has produced and marketed the furniture designs of Charles & Ray Eames since 1957. First producing under license, Vitra obtained exclusive rights to all Eames products for Europe and the Middle East in 1984. Consequently, we are the sole legitimate manufacturer of Eames designs in this part of the world. The brand gives you the security of owning an original product by Charles & Ray Eames.

The **modular design of the base** of the Segmented Tables permits the construction of tables of various sizes. The number of aluminium base elements depends on the size of the table top. Base pairs are linked by strong connecting elements made of black steel. While the contrasting materials serve to emphasise the modular character of the base, the table tops form a unified surface.

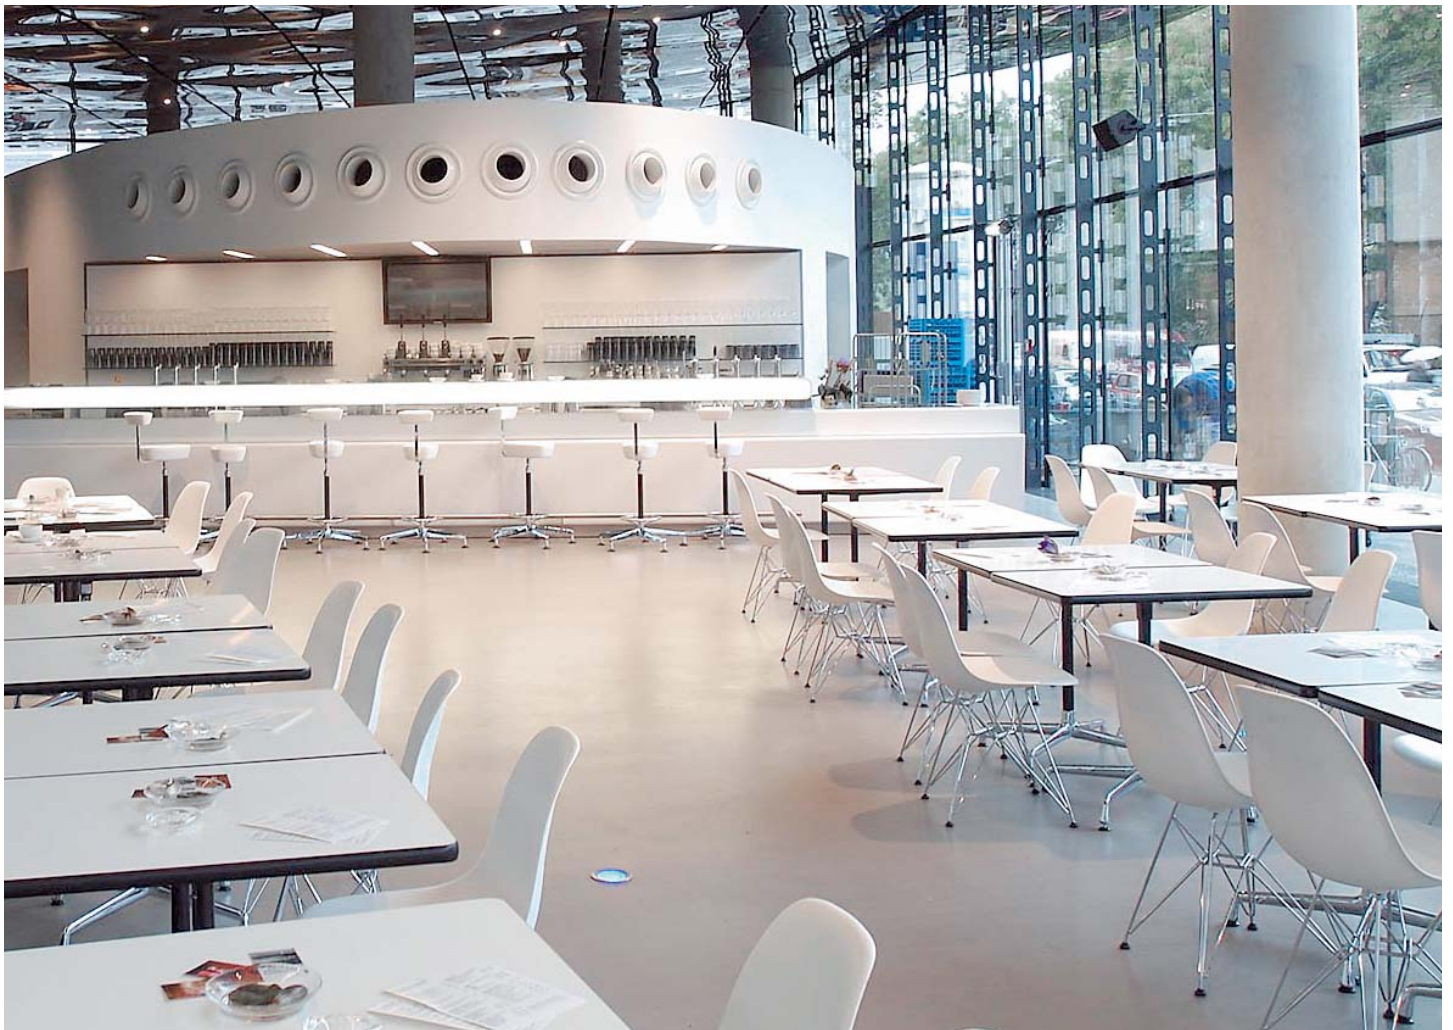

Assubel, Brussels (B)

Telindus, Leuven (B)

The all-purpose bases of the **Contract Tables** define their character: **Pillar**, **horizontal**, **universal** or **La Fonda** base. The bases are combined with round and rectangular table tops. Table surfaces are coated with laminate or wood veneer. Low occasional table with La Fonda base available with white marble table top.

The **Segmented Tables** system offers a broad range of different sizes and applications – from tables for one-on-one discussions to large tables or table configurations for conference rooms. The table tops are rectangular, round or oval and are made in a variety of materials with a variety of finishes; coated in white laminate, in natural beech, or in veneered Swiss pear.

The **Eames Tables** collection consists of two different product lines – Contract Tables (1950) and Segmented Tables (1964). Both include complete tables in defined sizes. The design principle of the Segmented Table makes it possible to realise individual table configurations in various forms and sizes. The design of the table bases establishes an affinity to the formal language of the form of the Aluminium Group, but it also harmonises with a wide range of other chair forms.

## Eames Tables Programme features

**Table tops:** Laminate surface in white with plastic edge in basic dark. Veneered surfaces in natural beech or Swiss pear, both with solid wood edge. La Fonda table, round, with natural stone surface in bianco marble. Additional custom surface colours and veneers optionally available. Bases with legs made of cast aluminium, chromed, polished or basic dark, upright and transverse tubes made of steel, basic dark or chromed. Legs standard with screw glides for uneven floors, adjustable up to 15 mm.

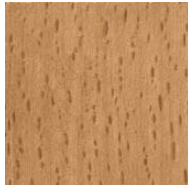

**Segment base:** Round tables with diameters of 1000 mm and up. Rectangular and oval tables in various sizes.

**Horizontal base:** Rectangular tables up to 2000 mm long.

**Universal base:** Round tables with 700 mm or 900 mm diameters and 800 mm square tables.

**La Fonda base:** For round tables measuring 650 mm in diameter and 450 mm in height.

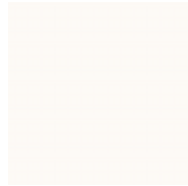

Natural beech

Swiss pear
